

Please reject Petition 04-160. I live in the Savannah, GA media market where Clear Channel owns several radio stations. Their offerings were so bad that I finally purchased an XM radio and have been happy to pay for XM's service to get quality programming. The XM Instant Traffic and Weather service is a boon when I travel to the Atlanta. I do not see why Clear Channel and its ilk should be allowed to interfere in the type of service I pay for. The FCC should be FOR competition, not AGAINST it. Thank you.
